Director of Marais Müller Yekiso Inc	March 2003	

WORK EXPERIENCE

Litigation – mainly commercial and insolvency litigation

Drafting / Settling of commercial agreements

Drafting of legal opinions

Bond foreclosures and other asset recovery

EXPERTISE

The greater part of my commercial / insolvency litigation practice over the last 30-odd years consisted of work for one of the major banks and one of the major petroleum companies in the RSA.

I regularly appear in both undefended (Third Division) and opposed matters in the High Court.

These include applications for sequestration and/or liquidation, summary judgment applications, eviction applications, etc.

I have also successfully conducted many insolvency interrogations (with and without assistance of Counsel) and have recovered substantial hidden and/or dissipated assets. This includes a period of ± 2 years working on a retainer for the petitioning creditor and a syndicate of Hamburg business people in the Jurgen Harksen sequestration matter.

I have also successfully sued a number of members/directors of liquidated entities for reckless/fraudulent trading as well as for the setting aside of impeachable dispositions.
